

## TRAINING EQUIPMENT SPACE

The La Central del CIRC annual pass holders have the possibility to safekeep their usual training equipment in the storage closets designated to specific technical disciplines, found on the hallway leading to the Training Hall.

They are free-access and La Central del CIRC isn't responsible for any stored equipment. It is required to follow the operating rules:

- All stored equipment must be labeled with the owner's name. Labels are provided in the same hallway.
- Store the equipment in the corresponding closet, properly placed and, when possible, in bags or cases.
- In these closets, it's forbidden to store equipment non-related to circus training.
- It's not allowed to use other members' equipment without their permission.
- In case a member doesn't train for more than 30 days, they must remove their equipment from the closets.
