

WORKSHOP

The workshop is a space designed for building stages, repairing equipment, etc. It has a host of tools and equipment, some of which are: compressor, power saw, angle grinder, welding machine, milling machine and common tools like hammers, clamps, saws, keys, screwdrivers, etc.

The artists have free access to the tools by requesting the key from Reception. The following conduct rules apply:

- Clean the work area after use.
- Put the tools back at their original location.
- In case of damage, please contact the technicians.
